***s*-numbers, measure and weak measure of noncompactness and real interpolation. (English summary)**

*Bull. Allahabad Math. Soc.* **8/9** (1993/94), 15–35 (1997).

The author presents various known results on the interpolation properties of *s*-numbers like Gelfand- or entropy-numbers and of measures of non-compactness. Also, Bernstein-Jackson-type inequalities are studied.
